To select a new student click [here](#).

To move from this student and go to a sibling, click here.

Exit Web Logout Terms Help

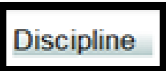

By clicking each tab, you will see more information. This information is current and “**real time**”. As soon as it is entered into the system by a school staff member, it is available on the Parent Command Center.

Under **Attendance**, you would see all absences, tardies, check-outs, etc. that have occurred so far this school year.

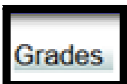

Under **Conduct**, you would see all conduct grades and comments awarded by teachers.

Under **Discipline**, You would see

Grades Related Information in the Parent Command Center

There are four tabs that show information about a student's grades. Each is discussed below.

Under **Grades**, you would see the current averages for the student in each class, along with semester and final averages. Think of this as a place to display information found on a report card.

Under **Lessons**, you would see assignment scores for each subject for the current grading period. Think of this as viewing the teacher's grade book. You would view all assignments, tests, projects, etc. You would see the point value assigned for each assignment and the points earned by your child. A user can change the time frame of the information displayed by choosing different time span in the “**Date Range**” drop down selection, then clicking “**Submit Request**”.

First Prior Marking Period

Progress

Under **Progress**, you would see all assignment scores for each subject for the entire year. Think of this as the same as Lessons, only you can see all grading periods, not just one grading period..

Transcript

Under **Transcript**, you would see a current transcript for a high school grade level student. If the student is in the elementary grades, grades for the current year will be displayed here.

Curriculum

Under Curriculum, you would see all courses your child is enrolled in. It includes past and present courses.

Other Tabs of Interest

Other

Under **Other**, you would see information about the school, grading periods, as well as school holidays.

Fees

Under **Fees**, you would see fees owed to the school as recorded by the School Secretary. Official written notification from school is considered the correct amount owed to the school.

Tests

Under Tests, you would see iLeap, Leap, ACT, GEE, etc. scores.

Troubleshooting - Notes:

I don't see all of my children enrolled at other schools: *Make sure your first name, last name, is the same for all of your children at each school. Contact the school(s) to verify.*

Will other people see my child's information on the Internet? *No. Parents and Guardians see only the information for their own child.*

Do the schools have access to my account? *No. Only the person who creates the account will know the login and password.*

How often is the Parent Command Center information updated? *The information is "real time". When information is entered by the school, it is immediately available in the Parent Command Center.*

I don't have Internet at my home. What can I do? *The West Baton Rouge Parish Library has Internet-connected computers for use by the public at its main location and at branch libraries throughout the parish.*

The school secretary can help you with any questions you may have.
