

Presentation

Scientist Search

Students will research information about a scientist and then prepare part of a whole-class multimedia presentation.

Materials:

- List of scientist
- Reference materials
- Internet access
- Multimedia Planning Sheet
- Sign-making/presentation/multimedia software such as Power Point

Before the Computer:

- Compile a list of scientist that you are interested in having your student's research.
See attached sheet for suggestions
- Obtain reference materials and/or Internet access.
- Compile a list of questions and/or topics for students to research.

Procedures:

1. Have students pick a scientist to research.
2. Students should be allowed time for research and compiling information.
3. Students will each create a sign or slide to tell their scientist and about his/her contributions to science and technology.
