

## Digital Camera

## Social Studies

### **Digital Camera Ideas:**

- Create a multimedia commercial-type slide show highlighting the various aspects of their state, or another state or country.
- Have students pick a topic about their city to research, photograph and describe.
- Engage students in the drama of history and help connect that history to their own lives. Take pictures at different historical areas and superimpose student images in front of them. Students can then write a story of what it would be like to live during that time period.
- Digital cameras can be used to capture images of relevant landmarks.
- Create a storyboard for a historical presentation.
