Subject: RE: Hit Counter on Parent Command Center

Hi Tammy,

There is a report in the SBLC module (see attached directions).

I know if logged in as a district level user such as yourself, you will see counts for the entire district. What I need to find out for you is if logged in as Principal, does a user running the report see counts for just his/her school. I will inquire and find out for you.

I know that you, as district administrator of Jpams, have access to specific reports by school via the Administrator function of Parent Command Center. The directions are below:

1. Login to the Parent Command Center.
2. Click on the ADMIN hyperlink in the lower right.
3. Type in your Jpams login/pwd.
4. Click the REPORTS hyperlink.
5. Locate the row for the "Parent Command Center Web Hits by School Report"
6. Set the desired year and school, then click SUBMIT.

I will research if the report in SBLC is sensitive to the login of the Principal, and thereby give data for just the school he/she is associated with.

Thank you,

Jessie Joubert

Subject: Hit Counter on Parent Command Center

Jesse,

One of the Principals wanted to know if there was a hit counter on the Parent Command Center?

Thanks,

Tammy S. Seneca, Ph.D.
