Coordinators,

We have added a new report card printing system to JPAMS. If you go to the Grades Command Center and select the Grades menu you will see \*NEW\* Report Card (jasper) as an option.

The program itself operates like the original report card. When you go to print the report cards it will not spool one report card after another. The program will create a Jasper print preview of the entire run. This process runs approx 30% faster than the method it replaces. This process will allow you to digitally archive your report cards. We are working to put the pressure sealed report card in this format and will notify when this is done.
